Introduction

About GGHK

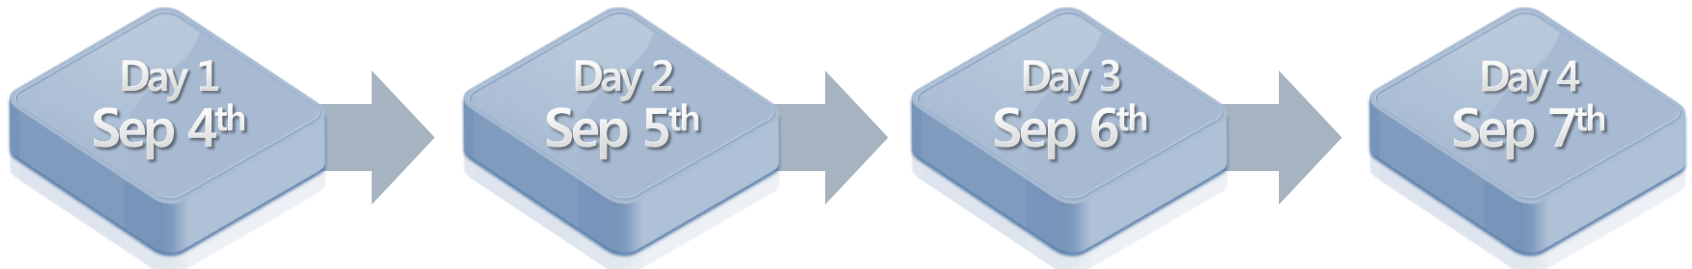

- ▶ **Since 2009, the Global Green Hub Korea(GGHK) has been held to foster business partnerships between project developers(clients) and Korean enterprises as the biggest environmental conference and networking event.**
- ▶ **The conference consists of numerous programs including the Global Environmental Forum, Environmental · Renewable Energy Industry Exhibition , Project Presentation, 1:1 Business Meetings and a series of seminars introducing opportunities for regional environmental projects.**
- ▶ **In particular, Global Green Hub Korea 2017 focuses on the Global Environmental · Energy Industry for sustainable development to share current global environmental industry trends and practices and to further explore the vision for the environmental industry.**
